

RESPLENDENT EPISTLE

January 2024

New Year Message – If your action inspire others to dream more, learn more and do more and become more, You are a Leader. Lets embrace the new challenges and brave up all the iniquities and thrive more this year

SAIS at the start of the year commenced by invoking Gods blessing- an inter religious prayer meet was conducted by the students and staff and graced by Director Mr N P Sundara Raju

Diving deep into the mysteries of curiosity that is awakened Classroom activities engaging the learning experience of every child, is in itself a learning

Show and Tell Competition - The tiny Geckos of SAIS, participated in show and tell - topic human body.

Play time with the teachers

Playtime makes up 20% of children’s time at primary school, now a days children spend less time outdoors due to upsurge of usage of mobile phone, an unstructured games or calisthenics add a greater potential and vital for the growth.

After lunch and hobby periods are thus planned for their playtime

to demonstrate sink and float

Grade I

Measurement of Length in different methods ... Handspan, Cubit, pace and footspan activity. Measuring has several advantages, including providing a standard for comparison, enabling precise communication, facilitating improvement and accountability, and supporting decision-making. By measuring.

Types of movements such as roll, slide, swing, bounce. Movement strengthens muscles and bones, improves coordination, builds fitness and develops motor skills. Movement and physical activity are also good for children's confidence, because they give children the chance to try new activities, test abilities and discover what their bodies can do.
